

“Purdue Collaborator”

Dr. Bennett, Ph.D.

*Purdue University
Department of Engineering*

About Dr. Bennett

Dr. Bennett grew up in Chicago and relocated to West Lafayette for her undergrad in Chemical Engineering from Purdue. Ever since then she’s been at Purdue and for the past five years involved in research projects. She loves her work at Purdue but enjoys Facebook, Twitter and knitting in her spare time. She lives with a mini-schnauzer, “Rose”.

Background

Dr. Bennett is collaborating with a faculty member at Notre Dame on a counterfeit drug detection program. She helps with the data analysis and evaluating images.

Primary Use

Dr. Bennett needs to access and modify the data and images for the project. She has no other use for the IR.

Summary of goals

- Be able to have an account in the IR
- Have access to view and modify the data and images for the project
- Be able to locate the project easily, without needing a link from an email
