

“Math Professor”

Dr. Johnson, Ph.D.

*University of Notre Dame
Department of Math*

About Dr. Johnson

Dr. Johnson is currently a faculty member at Notre Dame teaching students applied and computational math. He received his Ph.D. from Northwestern. He lives with his wife in Granger and enjoys spending time with his three grandchildren. He is very interested in knowledge sharing and furthering the research community.

Background

Dr. Johnson is working on a software project with researchers from two other universities and a private company. He has received a DARPA grant for the project, and thus needs a reliable way to archive data and software. He has already developed a website for the project. His other collaborators are also very interested in knowledge sharing.

Primary Use

Dr. Johnson would like to be able to share links to articles and related projects, as well as a place to archive materials from the DARPA grant.

Summary of goals

- Archive his software and data in accordance with grant's standards
- Assign DOIs to materials
- Share materials and various external links
- Store datasets and the software
